About Inov SciTech

InovSciTech is a conference, meetings, seminars, and workshops organizer which is focused on Clinical, Medical, Life Sciences, Engineering, and Technology. We promote the latest research, developments, and issues in the scientific community. It provides a platform for leading academic scientists, researchers, and research scholars to exchange and share their experiences and research results.

InovSciTech aims to support research brilliance through networking platforms and its mission is to encourage global communication, and collaboration, promote professional interaction and lifelong learning; recognize outstanding contributions of individuals and organizations. We believe in Inclusiveness and affirmative actions.

Who We Are

InovSciTech is specialized in organizing scientific conferences, meetings, and workshops internationally, to encourage networking and knowledge sharing, building and strengthening, discussing and demonstrating the technology by scientists, dynamic professors, ardent academicians, intellectual scholars, leaders, and research fellows.

What We Do

InovSciTech is involved in vitalizing and refining the knowledge of Science, Engineering & Technology to analyze the past, investigate the present and formulate a new form of applied science in the future. We provide the best content, an excellent delegate experience, exceptional networking opportunities with equally passionate professionals, and a great association to be in touch with people personally.

Mission

InovSciTech aim to create an ideal platform by promoting research by connecting scientists and researchers within and across disciplines at conferences and workshops that create an environment for information exchange, and the generation of new ideas and technologies in Science and technology.

Welcome Message!

The 8th International Conference on Biopolymers and Polymer Chemistry will be held on June 17–18, 2027, in the beautiful city of Prague, Czech Republic. This prestigious international event will bring together leading scientists, researchers, academicians, industry professionals, policymakers, and students from around the world to exchange knowledge, present cutting-edge research, and discuss the latest advancements in biopolymers and polymer chemistry.

The ISTCBPC 2027 conference serves as a global platform for fostering collaboration and innovation across academia and industry. Participants will have the opportunity to explore recent developments in polymer synthesis, biodegradable polymers, biomaterials, nanocomposites, polymer engineering, sustainable materials, smart polymers, polymer processing, biomedical polymers, green chemistry, recycling technologies, and advanced functional materials. The scientific program will feature keynote lectures, plenary talks, invited presentations, oral sessions, poster presentations, workshops, and networking opportunities designed to encourage interdisciplinary collaboration and scientific excellence.

Attendees will gain valuable insights into emerging technologies, industrial applications, and future trends shaping the field of polymer science. The conference provides an excellent opportunity to establish international collaborations, share innovative ideas, and connect with experts from universities, research institutions, government organizations, and leading industries worldwide.

Hosted in the historic and vibrant city of Prague, the conference combines scientific excellence with an inspiring cultural experience. Known for its remarkable architecture, rich heritage, and world-class conference facilities, Prague offers an ideal setting for professional networking and academic exchange.

Whether you are an established researcher, an early-career scientist, an industry expert, or a graduate student, the 8th International Conference on Biopolymers and Polymer Chemistry promises an enriching experience that promotes innovation, knowledge sharing, and meaningful collaborations while advancing the future of biopolymers and polymer chemistry.

Scientific Sessions

- * Polymer Chemistry and Advanced Polymerization Techniques
- * Biomaterials for Biomedical Applications
- * Polymer Nanocomposites and Nanotechnology
- * Green Polymer Chemistry and Sustainable Manufacturing
- * Polymer Processing and Manufacturing Technologies
- * Advanced Functional and Engineering Polymers
- * Drug Delivery Systems and Polymeric Therapeutics
- * Polymer Surface Engineering and Coatings
- * Polymer Recycling and Circular Economy
- * Packaging Materials and Food-Grade Polymers
- * Polymer Membranes for Energy and Environmental Applications
- * Additive Manufacturing and 3D Printing with Polymers
- * Industrial Applications of Biopolymers and Polymers
- * Emerging Trends in Polymer Science and Engineering
- * Future Perspectives in Biopolymers and Polymer Chemistry
- * Biopolymers: Synthesis and Characterization
- * Biodegradable and Sustainable Polymers
- * Smart and Functional Polymers
- * Natural Polymers and Biobased Materials
- * Polymer Physics and Macromolecular Science
- * Polymer Blends, Alloys, and Composites
- * Hydrogels and Soft Functional Materials
- * Tissue Engineering and Regenerative Biomaterials
- * Polymer Characterization and Analytical Techniques
- * Conductive and Electronic Polymers
- * Bioplastics and Eco-Friendly Materials
- * Polymer Rheology and Mechanical Properties
- * Computational Polymer Science and Molecular Modeling
- * Polymer Adhesives, Sealants, and Elastomers
- * Artificial Intelligence and Machine Learning in Polymer Research

Meeting Agenda

June 17, 2027

08:00 - 09:00 Registrations
09:00 - 09:30 Opening Ceremony and Introduction
09:30 - 10:10 Keynote Speech -A
10:10 - 10:30 Refreshments
10:30 - 12:00 Keynote Speech -B
12:00 - 13:00 Speaker Session -A
13:00 - 13:50 Lunch
13:50 - 15:00 Speaker Session -B
15:00 - 15:20 Coffee Break
15:20 - 18:00 Speaker Session -C

June 18, 2027

09:00 - 09:30 Opening Ceremony and Introduction
09:30 - 10:10 Keynote Speech -A
10:10 - 10:30 Refreshments
10:30 - 12:00 Keynote Speech -B
12:00 - 13:00 Speaker Session -A
13:00 - 13:50 Lunch
13:50 - 15:00 Speaker Session -B
15:00 - 15:20 Coffee Break
15:20 - 18:00 Speaker Session -C
